BANK OF AMERICA

Bank of America
Code to Connect 2022

Are you interested to use your passion for coding to develop applications that will become the banking platform of the future?

At Bank of America, our Tech teams are at the forefront of leading-edge technology, leveraging on our people to develop and build innovations that continue to drive the success of the bank.

Code to Connect is running its third edition this year, after two successful runs where we were overwhelmed by the enthusiasm and talent displayed by all participants. Some of them have even joined us full-time after graduation.

We start off with a 'Learning Series' which will give you the basics of how we use technology to solve for different real-life issues in the bank. There will also be mentoring sessions, where you will spend time with our assigned mentors, who will give you insights on how to approach the problem statement. All these will culminate in the Coding Challenge, where you will get to analyze a problem statement and submit your code to us.

Timeline

4 July, 12pm to 1pm	Code to Connect Kick Off
5-7 July, 12pm to 2pm	Learning Series - Global Markets Operations Technology/
	Equities Technology/
	Fixed Income, Currencies and Commodities (FICC) Technology
8 July	Coding Challenge will be released to shortlisted participants
12 and 14 July	Mentoring sessions
16 July, before 6pm	Submit code
20 July, 12pm to 1pm	Announcement of winners and prize presentation

*Learning Series are not mandatory, but are highly encouraged as we will be giving tips on how to approach the Coding Challenge. The Coding Challenge will be individual assignments.

Why should you join our Code to Connect program?

- Use a coding language (either C++, Java or Python) to solve a Coding Challenge related to the bank's functions

- Receive guidance and mentorship from members of our Technology team

- Experience what it's like to work in the Technology division at Bank of America

- Opoortunity to be fast tracked into the interview rounds for internship or full-time positions in the bank

- Winners of the Coding Challenge will stand to win attractive prizes

Registration Instructions

If you are **graduating in 2023 or 2024**, and have a passion for coding and learning new things, click here to register your interest for Code to Connect 2022. If you are shortlisted, we will contact you with more information on how to join the events. For any questions, please email us at APAC_Campus@bofa.com

Applications will close on **26 June 2022 (Sunday)**.
